

United States Bankruptcy Court
Southern District of New York:

Chapter 11 Case No. 09-50026 (REG)

Please take note, I started
employment with General Motors
on 10-5-66 at the age of 18. I
worked maintenance and worked
rebuilding furnaces. Because of
that work I was diagnosed with
asbestosis on 3-25-02. On 3-25-02
I was working at Indy Metal Fab
340 White River Pkwy. Indianapolis,
In.

Melvin has now completed forty percent of the required hours in the Millwright Apprentices Program.

Melvin's training this month has been entirely in the Heat Treating Departments. He is gaining valuable experience in furnace and blast machine repair and overhaul. It was our intention to move him out of the heat treat area next month, but this has changed. There are several items of equipment shut down in the heat treat areas for major overhaul including brick replacement. Melvin will be assigned to these jobs to enhance his heat treat abilities and experience.

Melvin's work habits, cooperation and desire to learn are outstanding. He appreciates the opportunity to learn and works well with his fellow workers. As I have stated many times, he is a real asset to our Department.

Melvin's job performance and cooperation continues to be outstanding in all areas. His attitude has remained well above average. Melvin's mechanical ability is one of his strong assets. He is learning the various responsibilities of the Milwaukee Classification well.

During this grading period, Melvin was assigned to the Heat Treat for several days. While in this area, Melvin gained some valuable experience in brick laying and furnace repairs. Throughout the duration of his Apprenticeship, Melvin will be assigned to the Heat Treat on many occasions in order to broaden his knowledge in this area.

Melvin also gained valuable experience during this period when he was involved in the raising of heavy machinery, with the use of many hand operated floor jacks.
